Planes & Aviation

## Customer Reviews

As ordered - quick service

Didn't really hold her attention.

I liked the way the author put pictures of big planes for the kids. (BTW, why a single engine on reservations page??) But why tell kids "book best airline? That's something for you to worry about! But overall I liked it. Thank you Courtney Lemmons!

I liked it because it had a lot of good info and I love PLANES .This book is great and fun to read

This book was horrible. Imagine you have a 4year old who loves airplanes and you download a book about airplanes and when you open the book it's about cow boys. This was awful.
