Heart Of Fire

Synopsis

A fabulous lost city once inhabited by women warriors and containing a rare red diamond: it sounded like myth, but archeologist Jillian Sherwood believed it was real, and she was willing to put up with anything to find it—even Ben Lewis. Ruffian, knock-about, and number one river guide in Brazil, Ben was all man—over six feet of rock-hard muscles that rippled under his khakis, with lazy blue eyes that taunted her from his tanned face. Jillian watched him come to a fast boil when she refused to reveal their exact destination upriver in the uncharted rain forests—and resolved to stand her ground. Neither of them could foresee what the days ahead promised: an odyssey into the fiery heart of passion and betrayal, and a danger that would force them to cast their fates together, immersed in the eternal, unsolved mysteries of love.â |

Customer Reviews

If ever there was a solid five star romance then this is it. Heart of Fire is a passionate, sexy, funny and exciting novel that thrills from beginning to end. The plot is racy and pacy with plenty of interesting plot twists and the main characters have so much chemistry between them that the book is practically on fire. From a physical perspective Ben Lewes is pretty much the ideal male hero; tall, dark, muscular, rough `n' ready...[I could go on all day... :-)]. He has the perfect blend of sex appeal and confident masculinity. He is the ultimate alpha - tough, strong and brave and a real bad ass when he wants to be (but never to Jillian). Often such men are paired off with some spineless little moaner with less personality than a lettuce leaf - you know the type, don't you? - the kind of heroine

that forgets to eat all the time and spends her days pouting and fainting if anyone speaks above a whisper. Therefore it is definitely worth celebrating that Ben's true love is Jillian Sherwood, a kind-hearted, clever, feisty woman. Ben might be the super-alpha male but Jillian is more than able to match him. It was hilarious to read the passages where Ben was desperately trying to work out whether Jillian was into him or not. My other favourite things are that there are plenty of chances in the book for Ben to defend Jillian or to do some charming protective gesture. The dialogue between them is snappy and fun. The other characters add a lot to the story and the ending is great too. I guess I should admit that a few things bothered me - Ben was a little too free and easy about sex before he met Jillian, and there's a scene near the end where Ben tracks Jillian down in her bedroom after a brief separation which I find a bit cringe worthy.
