## Customer Reviews

I really enjoyed this set. This set had 22 stories and there was about four titles that were a continuing story that had one character that I really hated. For me to hate a character in a story means it it had to be written very well to bring out that emotion in me.

This was a very like able series of stories. Some we're trilogies which made the stories complete. Two of the stories did not download at all but the series were still very enjoyable. I'd recommend them.

The stories were great light reading, however, the entire collection could have used a good proofreader. In addition, Book 2 (Carrie's Dilemma) had only the synopsis and nothing else. Also, in Tales of the Runaway Brides series, Book 1 (Lillian's Pretense) Chapters 5 through 9 were missing

I have read some of these stories as they were published, but jumped at the chance to get them all in one book. I deleted the copies that I had purchased earlier, but it wasn't until I was reading the new one, I realized that many whole stories are missing. Very disappointed to not have those books, now to re-read at a later date.

Several of the books were blank when opening

I just finished this. I enjoyed the variety of stories, but how they interacted some of the stories. I didn't realize there were mail order brides in those days.

I love all her books but was disappointed that Carrie's Dilemma did not download. Is there any way of getting an update on the book with that book included??
