Customer Reviews

Another great book by a very good author! This book kept me turning the pages because it had everything I look forward to in a book. This one had my complete attention until the very end. Plenty of surprises and the characters were perfect for this story. The storyline is something that happens in the world and it seems to be getting worse day by day. It's finally time the bad guys get what they deserve and this book does justice to the bad guys. This story has plenty of suspense and that's what makes me keep buying this author's books because his books have the right amount of everything!

I should have done research before I purchased it (\$.99 or not). It read like a very poorly written

middle school fiction story; I'm still not convinced it isn't one.
