## Customer Reviews

Despite the high price, it was littered with errors. Some were simply grammatical but others were errors in the answer keys. How do you learn from a book when the answers you're provided aren't right?

This book contains both theory and practical examples facilitates understanding and practicing of the statistics in any business or business-wise organisations. The profound knowledge about causes of unsatisfactory result is hidden until the statistical thinking explained in this book is applied to the business results improvement.
