Customer Reviews

I tried to write a non-fiction book once. It didn't sell. Within 15 minutes of reading this book I realized why. This book won't write your book for you... but it will help you get the book done, and you will sell more copies. Buying this book is a no-brainer. For the price of the book - you will need to sell somewhere between 1 and 5 more books to recoup the investment. You'll sell way more than that.

A five star review means that I love this book. Why THIS book? - It's the clearest book on e-book creation in my collection of 30 books. - The path shown here is much better than a recently appreciated book in my reviews (The other mentioned has its own uniqueness) - One need to be real smart in today's world to make a mark in today's competitive world. This book provides methods for smart working - The writing reflects a commitment to deliver - The guidance is suitable even for a novice - The elements of teaching/leading is slightly different from other authors who tell, but Akash Shows. Readability 4/5 Understandability 4/5 Lay out, structure 5/5 Value for money 5/5 Usefulness 5/5 I recommend highly

Akash has nailed down 82 straight-forward steps to complete in 15 days to create a non-fiction book. As an author writing as from experience his steps are proven and easy to follow. I particularly like that he offers bonus day 16 which helps with the publishing task. Also there a great tools for outsourcing and tips on when this makes the most sense.

As an indie author of numerous books, I'm always on the lookout for practical,time-saving tips to help me write faster and better.I am VERY impressed by this book. It contains so many helpful, workable and easy to implement tips that would be of value not only to non-fiction authors but some also applicable to those writing novels.The information is presented in a logical,easy to follow way,that also makes it easy to go back to for future referencing as well.I also appreciated the author's down to earth, friendly voice that added to the overall appeal of this guide.As an avid reader and reviewer, in addition to my own creative pursuits, I read a LOT of books; usually two or three or more in a week. It's not often that I have nothing but good things to say about a book. But that's the case with this one! This is the first book I've read by Akash Karia, but definitely not my last. I'm going to check out his book page right now,on my kindle! ^ Highly recommended.Geraldine Helen Hartman author of:Laughing at the Grim Reaper! Gems of Wisdom for Aging Well

Reading this book gave me ideas as I am about to publish the EBook version of my newest book, business, brains & BS, I immediately made some changes just based on Akash 's book. Also I will try to use his quick method to do some shorter books. It took me two years to write my last book. You can read this book first, then start writing.

A great and easy read, Akash writes in a very friendly manner. The book is well structured, and offers some excellent tips on not only how to write your book, but also how to promote it (which is the tough part!). It's a lot of work, but it's clear that Akash takes the experience seriously and has success to show for it.Definitely recommended to anyone hoping to write an eBook..can't wait to get started on mine!

One of the most professional non-fiction ebooks that I have encountered. Very practical and helpful information indeed and helps me a lot in the process of planning and writing. Thank you for this valuable material, Akash.

I didn't like this book. It's very fluffy, almost no useful information in it at all. A very short read. Basically he briefly mentions banal things -- chose a topic that you like, read other people's books to get ideas, write an outline for yourself, find a time of day for writing that works for you, and so on. I don't believe all the 5 star reviews either. The first reviewer I looked at was giving 91% 5 star reviews, including one for this book. Unbelievable. I would not recommend this book to anyone.
