Customer Reviews

I bought this book for a friend who wants to learn to keyboard, but is a little intimidated by computer typing programs. It is a comprehensive book which reminds me very much of the one I used to learn typing (many years ago) in high school.

If you are looking for a good textbook for a beginners keyboarding class; this is great. Instructions are very clear for lesson planning

Great book for homeschoolers! My 11-year-old can do each lesson in 20-30 minutes, which seems about right for keeping the attention.

there was nothing wrong with the book, its just an older version than I was expecting.

good book
