Selling Blueprint - How To Find And Launch Your First Private-Label Product On Amazon In 90 Days Or Less

Synopsis

Have you heard stories about people striking it rich by selling their own private-label products on ? Wish you could have financial freedom and more time with your family just like those other folks? While it does require work on your part, it's easier than you think. I'll gladly show you the exact steps I took to choose and launch my first private-label product. I generated over \$118,000 in less than 6 months and have since increased my success almost 3-fold. In this book I'll explain in simple, easy-to-understand language:- How to find product ideas right before your eyes â" if you know what to look for.- My secret 10 x 10 x 1 formula that can bring you \$100 a day (\$36,500/yr.) in pure profit.- The 5 phases of choosing & selling a product that is successful.- My personal recommendations for locating manufacturers and vendors that are easy to work with.- How "bootstrapping" can eventually turn you into a 6-figure earner.- Sneaky little tips I've learned that will save you time and help with supplier price negotiations.- My 2 favorite ways to launch your new product with unbelievable results.- 2 vital elements that significantly impact your rankings. (It's not your title and your search terms!)- My perfected 6-step plan for maintaining a steady flow of sales indefinitely.- The 9 pitfalls you must overcome to be successful.- The real-life case study of one Amazing Seller member who turned an initial \$500 investment into \$1,000 profit in about 60 days. **BONUS:** You'll get access to a special **FREE** online course I've created to help you take action and launch your first private-label product on . Ready to create your first profitable private-label product to sell on ? Download this Kindle book now and let's get started!

Customer Reviews

Very detailed information about what is involved with private labeling and selling on using fba. It is a how-to book that truly delivers. It's well-written and an easy read, but packed full of information. This would be a good book for someone who is considering going into private labeling. It is also a good book for someone who is already in the marketplace and wants to ramp up. I've listened to the author's podcasts and workshop. This book goes over a lot of that same material, which is why I like it. It is easy to refer to the section of the book to look up what I need to know at a particular phase. There is a list of Resources and a Glossary -- both helpful. This book was edited well. The formatting is nice. It flows smoothly without errors in the "cut and paste" (which I've seen in several other Kindle books). The grammar and spelling work. This is a book that I will recommend to my friends who are interested in selling private label products on . It's an edifying book.

If you are considering or have an business -save yourself time and money with this. I have been listening to Scott Voelkers podcast for months and this book gives you so much great info to get your business up and running or to the next level.

Scott Voelker is such a giver! He's developed a blue print that works extremely well in his online selling business. But instead of keeping it a secret, he is generously sharing his strategies with the rest of us. Highly recommend - Scott is the real deal!

I'm so glad I found Scott Voelker when I was looking to grow my business. I have been running my online business for about 5 years and I had to learn by myself and by doing it that way took so long, but soo loong for me to being able to quit my job. I wish I had known anout Scott before and learn from his knowlegment It woulda saved me a lot of money and time, but also its never too late to start and now I'm taking every advice he shares in his book and podcast, also in his FREE programm, my results are amazing! God bless you Scott and your Family!

Loved this book! Also joined up for Scott's course as well, such a great help and this book was able to serve me as written notes that I can go back to at anytime to review! I am now in the process of launching my first product, currently awaiting samples. If you are looking at starting your own business, this book is MUST!

This is a comprehensive, but concise guide to getting started with selling Private Label products on . Easy to follow and understand, Scott Voelker lays a solid foundation for launching your own business. Any potential confusion is cleared up with answers to troubling questions along with links to important resources (free and paid). I highly recommend reading this book if you'd like to join all the people who are enjoying success on .

Excellent book. Scott Voelker is a great and motivating teacher for the entrepreneur. If interested in selling on , get this book, you will not be disappointed! Presented in a step by step, easy to follow format.

If you are brand new to the idea of private labeling, this eBook is a great starting point to get the rough idea. Although I am yet to personally launch an labeled product, I have conducted a fair amount of research before purchasing this eBook. As a result, I already knew most of the content in here. It does not go into DEEP detail on the various steps of launching a product, but does cover enough information to make it an informative read. It is well-written but simply did not suit all my needs. However, any knowledge gained is better than nothing, and for the small price tag I do not regret the purchase.
