Customer Reviews

As a licensed CPA and blogger herself, Sarah knows the blogging and finance world inside out. Her advice is specific, on-point, easy-to-understand, and insanely helpful. This book is a must-read for every blogger to make sure you're taking all the deductions you should while also keeping everything organized and in check when it comes to your taxes.

Sarah knows her stuff. It's refreshing to have a book like this written for bloggers and online business owners. Before this I felt like I had to wade through books and articles that just weren't relevant to my situation. This book is going to save bloggers and online business owners a tremendous amount of time and frustration.

This book covers a lot of basic tax topics and is geared towards bloggers but really it's useful for anyone just starting out in business. It also includes reference to where you can find more information from the IRS if you want more in-depth knowledge pertaining to particular topics. The author explains things in a way that is easy to understand.

Reading a tax guide from someone who knows what they are talking about AND is a blogger herself is extremely valuable. I just started reading this book and have already learned so much!
